J O I N U S

The Golden State Manufactured-Home Owners League (GSMOL) is a non-profit organization formed almost 60 years ago to protect the home values and quality of life of Mobile Home owners. In addition to working with the State of California and local legislatures, GSMOL works daily at the State level lobbying for legislation that will benefit Mobile Home owners. Through our Emergency Legal Fund (ELF), GSMOL pursues violations of the Mobilehome Residency Law (MRL798…) which protects Mobile Home owners.

To help GSMOL continue to provide these and other services,

we invite you to join today.

Coping with Climate Change II?

Last month we talked about rising world temperatures and things that people can do to cope. This month we'll take a look at some things that can be done in cities.

Cities tend to be several degrees warmer than the surrounding countryside. This "heat island effect" is the result of having large amounts of land paved over, which absorbs heat from the sun and then warms the area around it. It also releases heat after sunset, keeping nights hotter than they would otherwise be, and making it necessary to run expensive air conditioning more than we would like. What to do?

Plant more trees
Trees provide direct shade, and they actively cool their surroundings by evaporating water. They do, however, require water, which is becoming scarce in many areas, although the use of recycled "grey water" can help.

Use green roofs
Another way to reduce the temperature inside a building that doesn't require any energy is the so-called "green roof." Just as planting trees in the ground can provide both shade and evaporative cooling for the street, the same thing can be done to a roof: Put down a thick layer of soil and grow green plants in it. The same question about water still applies, however.

Radiative cooling
If you leave something black out in the sun it will get hot, which leads to the obvious: make your roof white (white reflects heat) and your house will be cooler. And researchers have recently developed coatings that are so effective at radiating heat back to the sky that they can actually become cooler than their environment. The effect is called radiative cooling, and shows a great deal of promise.

VIEU 新闻

应对气候变化 II

上个月，我们讨论了全球气温上升以及人们可以采取的应对措施。本月，我们将探讨在城市中可以采取的一些措施。

城市通常比周围的乡村地区高出几度。这种“热岛效应”是由于大面积土地被铺上水泥或沥青，这些材料会吸收太阳热量并使周围环境变暖。此外，它们在日落后仍然释放热量，使夜晚比正常情况下更热，从而导致空调使用增加，能源消耗更高。如何应对？

种植更多树木
树木不仅能提供直接的遮阴，还能通过蒸腾作用冷却周围环境。然而，树木需要水，而水在许多地区正变得稀缺。不过，使用回收的“中水”（灰水）可以有所帮助。

使用绿色屋顶
另一种无需能源即可降低建筑物内部温度的方法是所谓的“绿色屋顶”。就像在地面上种植树木可以为街道提供遮阴和蒸发冷却一样，我们可以在屋顶上铺上一层厚厚的土壤并种植绿色植物。然而，这种方法同样面临用水的问题。

辐射冷却
如果把黑色物体放在阳光下，它会变热，因此一个显而易见的做法是：将屋顶涂成白色（白色能反射热量），从而让房屋保持凉爽。最近，研究人员开发出了一种特殊涂层，它能有效地将热量辐射回天空，甚至能让物体温度比周围环境更低。这种效应被称为辐射冷却，并显示出极大的应用潜力。

MBRA

MISSION BAY RESIDENT'S ASSOCIATION

Welcome to Mission Bay Resident's Association

MBRA's Core Functions

- **Information Dissemination:** The MBRA acts as a central hub for communication, ensuring that residents receive timely and accurate information about community matters, potential hazards, and safety concerns.
- **Advocacy:** The board represents the interests of homeowners, advocating for their needs and concerns at local, regional, and even state levels when necessary.
- **Community Engagement:** The MBRA fosters a sense of community by encouraging resident participation in meetings, events, and initiatives that promote safety and well-being.

Your Role as a Homeowner

While the MBRA is committed to serving the community, it's important to remember that residents also have a role to play.

- **Stay Informed:** Attend MBRA meetings, read MBRA emails, and stay up-to-date on community issues.
- **Get Involved:** Participate in community events, volunteer your time, and share your ideas and concerns with the board.
- **Be Prepared:** Take steps to prepare your household for emergencies, such as creating a disaster supply kit and developing a family communication plan.

Working Together for a Safer Community

The MBRA and the homeowners of Mission Bay are partners in creating a safe and thriving community. By working together, we can ensure that our community remains a place where everyone feels secure and supported. Remember, the MBRA is here for you. We are asking all interested homeowners to contact MBRA at MBHOASL@gmail.com (email is preferred) or to call Cheryl Noldon @510-325-8307.

Stay informed, get involved, and be prepared. Together, we can make a difference.

New Year's Fitness Program starting!!

Come by the clubhouse on Monday, Wednesday and Friday mornings from 9:30 to 10:30am to join in on the new exercise class being offered.

The exercise DVD's we will be watching are for all levels of activity, with options for standing or sitting while exercising. Small hand weights can also be used if you prefer.

The goal is to stay active even if we can't get outside to walk or exercise during the cold winter season.

We'll see you there!!

TUESDAY TWITTERS FROM LORRAINE HALES

Remember as a kid when you fell on the trampoline everyone would keep jumping so you couldn't get back up? That's basically life as an adult.

You don't know concentration until you have to carry this thing from the sink to the freezer

How to tell you're an adult:

- You gain 30lbs overnight
- You'd rather sleep than go out
- Everything hurts
- Comfort comes before style
- You have a favorite spatula
- Everything feels like a chore
- College students look like 12yr olds
- You're always annoyed

Celebrate St. Patrick's Day by baking a tradional Irish Soda

Here are a few interesting facts about Irish Soda Bread with buttermilk.

- The cross that is slashed into the dough before baking was made to ward off devils and protect the house. It also helps the center of the bread bake all the way through.
- During the mid-1800s, the Irish were making so much soda bread that baking soda almost doubled in price.
- Soda bread was served as an inexpensive way to put bread on the table. At the time, widespread famine meant bread had to be made out of the most basic and cheapest ingredients available.

TRADITIONAL IRISH SODA BREAD

PREP TIME	COOK TIME	TOTAL TIME
10 mins	35 mins	50 mins

Traditional Irish Soda Bread - this Irish Soda Bread recipe only requires 4 ingredients, flour, buttermilk, salt, and of course, baking soda. It doesn't use yeast so it's simple to make!

INGREDIENTS

4 cups alll-purpose flour
1 1/2 teaspoons baking soda
1 teaspoon salt
2 cups cold buttermilk

Servings: 1 loaf (6-8 servings)
Calories: 364 kcal
Author: Malinda Linnebur

INSTRUCTIONS

Preheat oven to 425 degrees F. Line a baking sheet with parchment paper or grease well; set aside. You can also use an 8" cake pan or oven proof skillet.

In a large bowl whisk together the flour, baking soda, and salt. Stir in the buttermilk just until combined and it starts to become too stiff to stir. Transfer to work surface and with floured hands lightly knead the dough 5-10 times or until all the flour is moistened and the dough comes together.

Form dough into an 8" round. Place on prepared pan and with a very sharp knife cut a 1/4" deep X on the top. Bake for 30-35 minutes or until golden brown and it sounds hollow when tapped on the bottom.
